

Passing toll stations comfortably and contactless

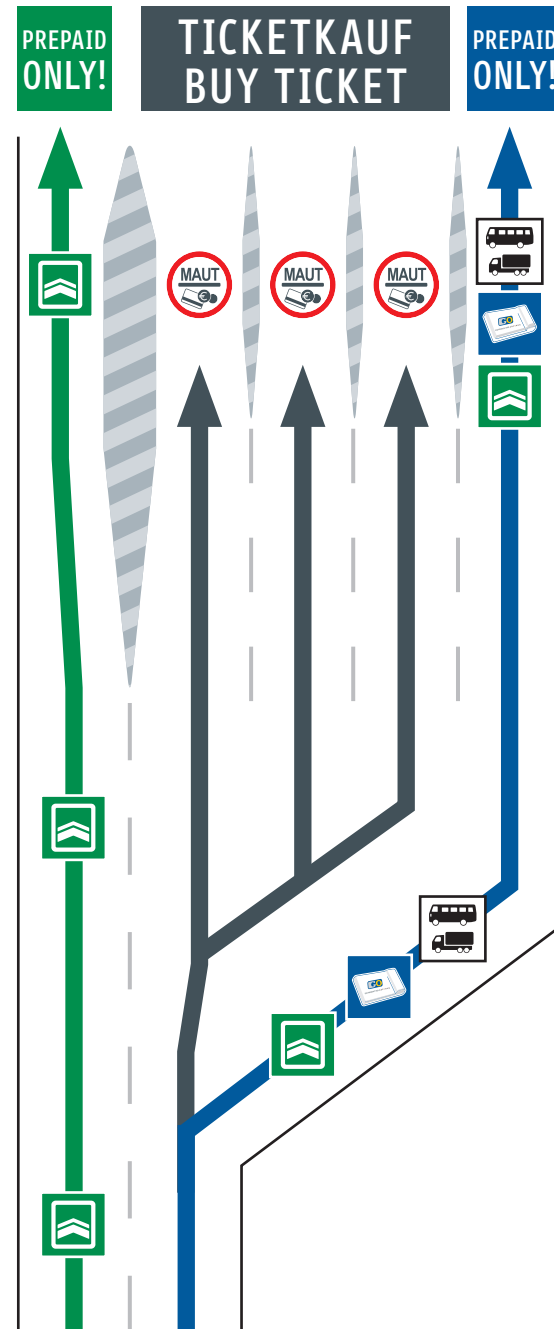

Drivers using Austria's motorways are required to purchase an adhesive or digital toll sticker. Six motorway sections require you to purchase an **additional toll ticket**.

The A9, the Pyhrn Motorway, features two such toll stations: **Bosruck and Gleinalm**.

Drivers who have purchased a digital toll ticket online can pass the toll stations without having to stop using the **Prepaid Only lane marked in green** – contactless, without gates and thus much faster and more comfortably.

If you don't have a toll ticket yet, line up on the lane leading up to the toll booths. There, you can pay the toll in cash – we also accept all common credit and debit cards.

How to get through our Bosruck and Gleinalm toll stations quickly and easily.

Scan QR code now and purchase section toll digitally.

Digital Section Toll Flex

Drive now, pay later

Simply register at shop.asfinag.at or via the “**Unterwegs**” ASFINAG App and every time you pass an Austrian toll station, the toll is automatically billed later on. Before the Bosruck and Gleinalm Tunnels, you can use the section toll lane marked in green to pass through without having to stop.

Your benefits:

- Register once and pass through our toll stations effortlessly for one year.
- Cashless, contactless and without having to queue.
- Use the green toll lane to pass through without stopping.
- All passings will be billed according to the rates in effect.
- Clearly arranged customer account.

Simply register at:
shop.asfinag.at
